

CSE 4228 Assignment 1

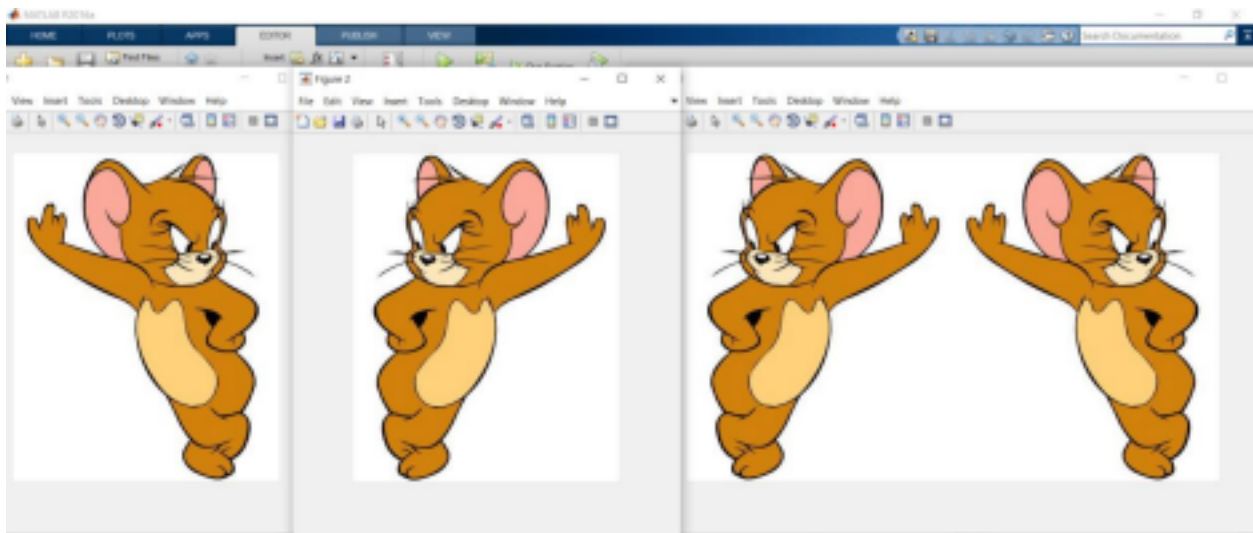

Spring 2022

Question 1:

1. Take any image of your choice.
2. Create a mirror image.
3. Merge the two images.

Example:

***You have to do the merge in the following format.

Question 2.

1. Take two images of your choice.
2. Take a blank image.
3. If your ID is even, divide the blank image into 6 columns. If your ID is odd, divide it into 5 columns.
4. Replace the odd columns with the portion of the first image and even columns with the portion of the second image.

Example:
