1. X Group is headquartered in Z and has its development centers in A & B and branch office in H. Due to its global presence, X Group is able to deliver reliable solution to its clientele spread across many countries. In the past one decade the group has experimented in various sectors be it IP telephony or ecommerce. The success of X Group lies in its operational excellence, strong values, product innovation and its capability to deliver superior customer satisfaction in each of the markets it serves. Now consider the above scenario and **applies** a model that suits better with a descriptive figure. [07]

2. **States** the terms “V & V” in terms of software engineering with an example.
