1. **Explains** data flow diagram with DFD symbols.   [03]

2. Precision Tools sells a line of high-quality woodworking tools. When customers place orders on   [07]
    the company's Web site, the system checks to see if the items are in stock, issues a status message
    to the customer, and generates a shipping order to the warehouse, which fills the order. When the
    order is shipped, the customer is billed. The system also produces various reports. Based on the
    situation above, **construct** a level-0 data flow diagram with identifying Entities, Process, Data
    Stores & Data Flow.
